

Center for Targeted Therapeutics and Translational Nanomedicine (CT³N)

Fall 2016 Seminar Series

Aug. 24, 2016

Weibo Cai, Ph.D., University of Wisconsin, Madison

Associate Professor, Department of Radiology, Director of the UW Molecular Imaging and Nanotechnology Lab

"Molecular Imaging, Image-Guided Drug Delivery, and Theranostics"

Sept. 28, 2016

Alexander Klibanov, Ph.D., University of Virginia

Associate Professor, Division of Cardiovascular Medicine and Department of Biomedical Engineering

"Drug-Carrier Particles and Ultrasound: Tools for Triggered Delivery"

Oct. 20, 2016

***12pm in 337
Towne Bldg.***

Bioengineering Seminar Series

Jennifer Cochran, Ph.D., Stanford University

Associate Professor of Bioengineering and Chemical Engineering

"Engineering Proteins for Visualizing and Treating Cancer"

Oct. 26, 2016

Julie Champion, Ph.D., Georgia Tech

Associate Professor of Chemical & Biomolecular Engineering

"Protein Nanocarriers for Intracellular Antibody Delivery"

Nov. 16, 2016

Warren C. W. Chan, Ph.D., University of Toronto

Professor, Institute of Biomaterials & Biomedical Engineering, Donnelly Centre for Cellular and Biomolecular Research, Materials Science and Engineering, Chemical Engineering and Chemistry

"Cancer Nanomedicine: The Challenge of Targeting Nanoparticles into Tumors"

Dec. 6, 2016

CT3N Symposium - all day event

Biomedical Research Building

421 Curie Boulevard

Jan. 19, 2016

***12pm in 337
Towne Bldg.***

Bioengineering Seminar Series

Kimberly Kelly, Ph.D., University of Virginia

Associate Professor of Biomedical Engineering

Talk Title TBD

****Seminars are held in Smilow 10-146 at 12PM unless otherwise noted****
For additional information, contact Camie Minieri: 215-898-8416 or minieri@upenn.edu
