

Targeted Therapeutics and Drug Delivery Systems 2008-2009 Seminar Series

9/22/2008

Paula Hammond, Ph.D.

Massachusetts Institute of Technology

Self Assembly of Modular Polymers for Gene and Drug Delivery

(sponsored by the Department of Pharmacology, 12:00 PM in Reunion Hall)

10/15/2008

Kinam Park, Ph.D.

Purdue University

Hydrotropic Polymer Micelles for Delivery of Poorly Soluble Drugs

11/12/2008

David Thompson, Ph.D.

Development of Bioresponsive Materials for Drug Delivery

Purdue University

12/3/2008

Robert Levy, M.D.

Children's Hospital of Philadelphia

Targeting Magnetic Nanoparticles to Stents: Local Delivery and Cell Therapy Studies

1/14/2009

Tamara Minko, Ph.D.

UMDNJ Rutgers University

Receptor Targeted Nanocarriers for Tumor-Specific Treatment and Imaging

2/18/2009

James Baker, Jr., M.D.

University of Michigan

Nanotechnology for Therapeutic Initiatives

Reunion Hall at noon

3/4/2009

Joseph DeSimone, Ph.D.

University of North Carolina

Using the Fabrication Technologies from the Microelectronics Industry to Address the Unmet Needs in Drug Delivery

5/13/2009

Philip Thorpe, Ph.D.

University of Texas Southwestern Medical Center

Targeting Phosphatidylserine on Tumor Blood Vessels and Viruses

All seminars begin at **12:00 PM** in 253 BRB II/III unless otherwise stated
Refreshments Served

Funds provided by
The Provost's Interdisciplinary Seminar Program
