Targeted Therapeutics and Drug Delivery Systems
2008-2009 Seminar Series

9/22/2008 Paula Hammond, Ph.D.
Massachusetts Institute of Technology
Self Assembly of Modular Polymers for Gene and Drug Delivery
(sponsored by the Department of Pharmacology, 12:00 PM in Reunion Hall)

10/15/2008 Kinam Park, Ph.D.
Purdue University
Hydrotropic Polymer Micelles for Delivery of Poorly Soluble Drugs

11/12/2008 David Thompson, Ph.D.
Purdue University
Development of Bioresponsive Materials for Drug Delivery

12/3/2008 Robert Levy, M.D.
Children’s Hospital of Philadelphia
Targeting Magnetic Nanoparticles to Stents: Local Delivery and Cell Therapy Studies

1/14/2009 Tamara Minko, Ph.D.
UMDNJ Rutgers University
Receptor Targeted Nanocarriers for Tumor-Specific Treatment and Imaging

2/18/2009 James Baker, Jr., M.D.
University of Michigan
Nanotechnology for Therapeutic Initiatives
Reunion Hall at noon

3/4/2009 Joseph DeSimone, Ph.D.
University of North Carolina
Using the Fabrication Technologies from the Microelectronics Industry to Address the Unmet Needs in Drug Delivery

5/13/2009 Philip Thorpe, Ph.D.
University of Texas Southwestern Medical Center
Targeting Phosphatidylserine on Tumor Blood Vessels and Viruses

All seminars begin at 12:00 PM in 253 BRB II/III unless otherwise stated
Refreshments Served

Funds provided by
The Provost’s Interdisciplinary Seminar Program
