

Center for Targeted Therapeutics and Translational Nanomedicine (CT³N) Fall 2021 Seminar Series

All seminars are held at 12PM via Zoom

September 29, 2021

Jayanth Panyam, PhD

Professor and Dean for the School of Pharmacy,
Temple University

"TLR Agonist Based Anticancer Nanovaccines"

October 20, 2021

Kara L. Spiller, PhD

Associate Professor, School of Biomedical Engineering,
Science, and Health Systems, Drexel University

"Immunomodulatory Biomaterials in Regenerative Medicine "

November 10, 2021

Ananth Annapragada, PhD

Texas Children's Hospital, Professor of Radiology,
Baylor College of Medicine

"Adventures in Nanoparticle Imaging "

December 15, 2021

Marxa Figueiredo, PhD

Associate Tenured Professor, Department of Basic Medical Sciences,
Purdue University

"Exploring Osteo-Immune Therapeutic Gene Delivery for Metastatic Prostate Tumors"

Center for Targeted Therapeutics and Translational Medicine 10th Annual CT³N Symposium 2021

**Wednesday, December 8,
2021 8:15 AM – 6:00 PM**

**Biomedical Research Building
Gaulton Auditorium and Lobby
421 Curie Boulevard
Philadelphia, PA 19104**
